- ✓ gentle on skin
- ✓ dryer-safe

Material: 100 % organic cotton

Country of origin: Made in Turkey

Congratulations!

You have chosen a product from the high-quality collection of Wörner Südfrottier. This product has been manufactured in accordance with our strict quality standards and complies with the high requirements of the GOTS standard (www.global-standard.org).

Our products are dyed with high-quality Indanthrene dyes and are therefore colourfast. They can be washed at all temperatures up to 95°C. Experience shows that washing at 60°C or higher reduces lint formation, especially during the first 10 washes.

Care tips: When washing, make sure that no hooks or Velcro fasteners come in contact with the terrycloth.
